## Quality Assurance / Test Automation Specialist

### PROFILE

I am a skilled professional with experience in test automation, quality assurance, front-end development and test scenarios. I have worked extensively with tools like Cypress.io, Gauge, and Selenium to ensure the delivery of high-quality web testing solutions. Currently, I am working as a Test Automation Specialist at Snapmuse.com, where I automate test scenarios and contribute to maintaining the overall software quality.

During my tenure at Snapmuse.com, I gained valuable hands-on experience in software testing and quality assurance processes. I have also taken on additional responsibilities, including working as a Frontend Developer for a period of 2-3 months, where I designed and built various pages for the website.

Alongside my technical expertise, I hold a Bachelor's degree in Teaching English as a Second or Foreign Language/ESL Language Instructor from Boğaziçi University. This educational background has equipped me with strong communication skills, particularly in English.

### EXPERIENCE

#### Quality Assurance / Test Automation Specialist

- **Snapmuse**  
June 2023 – Present
  - Proficiently utilized tools such as Cucumber-BDD, Gauge, Selenium, and Cypress to develop and maintain automation test scenarios, enhancing efficiency.
  - Proficiently identified, documented, and tracked defects using JIRA, contributing to swift issue resolution and improved software stability.
  - Worked on the frontend tasks as a stand-in frontend developer. Designed and built pages for the website.

#### Testing Intern

- **Snapmuse**  
June 2022 – June 2023
  - Gained hands on experience with testing tools such as Selenium, Cypress for E2E testing and Locust for load testing.
  - Demonstrated the ability to create and execute organized test plans, test cases, and scripts for both manual and automated testing.
  - Actively collaborated with cross-functional teams to align testing tasks with project timelines and requirements.
